

Progress over period (19/07/2019 – 08/08/2019)

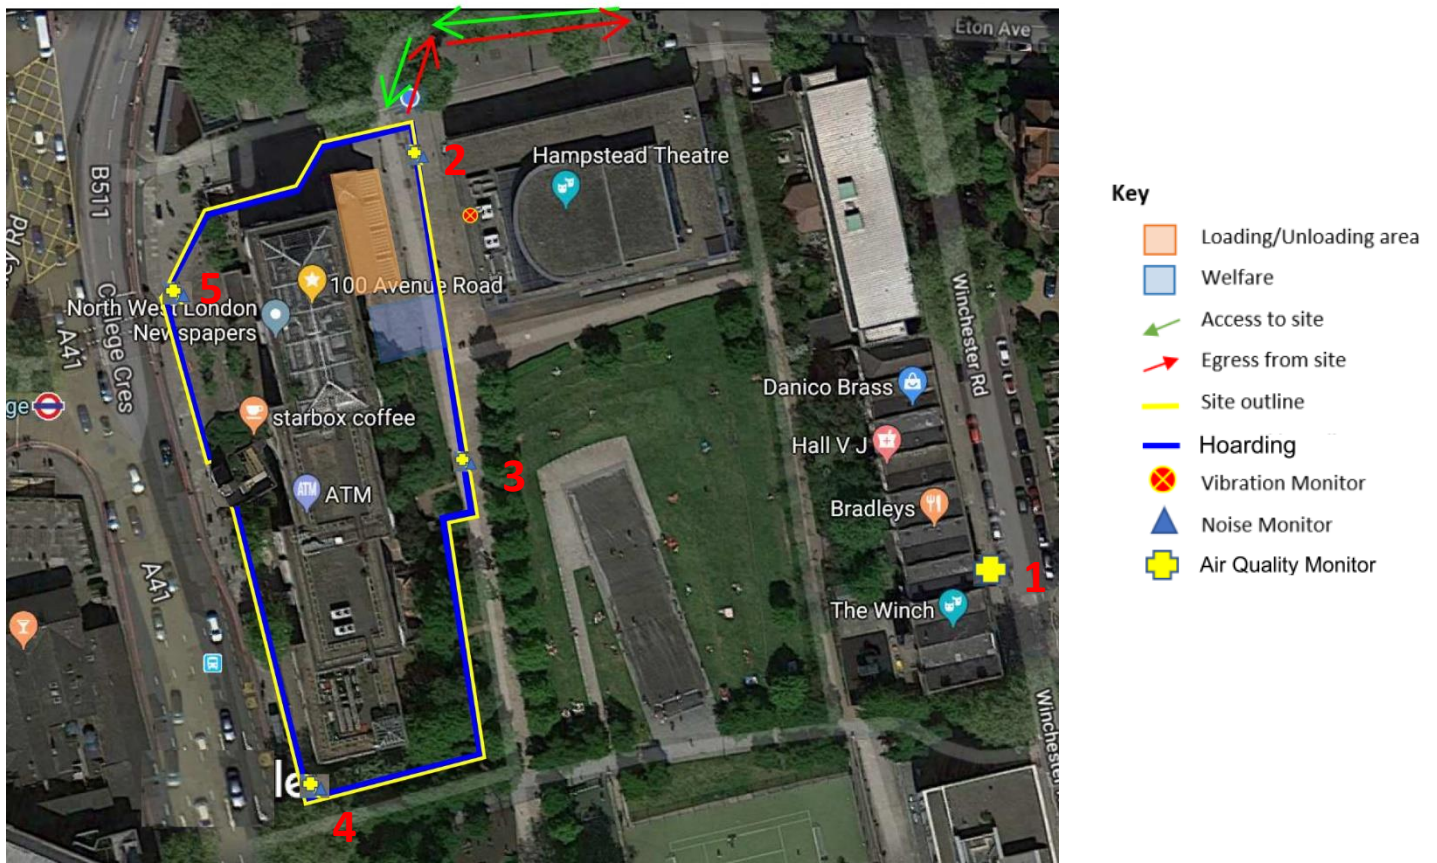

- Structural demolition of existing ground floor slab
- On site crushing of hardcore resulted from demolition to minimise vehicle movement
- Breaking out existing foundations for piling works
- Installation of Temporary Works to support existing retaining works
- Excavations works

Actions over next period (08/08/2019 – 08/08/2019)

- Breaking out existing basement slab to allow piling
- Crush hardcore material resulted from demolition to minimise vehicle movement
- Create piling mat
- Create Pit Lane after Bus Stop has been suspended
- Park Land area if licence is granted

Environmental Summary (From 06/07/2019- 02/08/2019)

A full environmental plan for the site has now been compiled by John F Hunt that sets out the location of noise air quality & vibration monitoring equipment for the demolition phase of works

Air Quality / Airborne Particulate Criteria:

Authority	Pollutant	Objective	Measured as:	Relevance
EC/UK Air Quality Standard	PM10	250 µg/m ³ . Exceeded < 35 times/annum	15-minute intervals	Air quality in relation to public health
EC/UK Air Quality Standard	PM10	50µg/m ³ . Exceeded < 35 times/annum	24 hours	Air quality in relation to public health

Table 2. Environmental Airborne Particulate Standards

Measured levels exceeding 250 µg/m³ are considered to represent a significant impact to the surrounding environment over a 15-minute mean. Therefore, it is important to assess any methods of work that represent a risk and implement sprayed suppression techniques accordingly.

Dust Monitor ID	S/N	Location	Amber Trigger Exceedances (150 ug/m3 - 15 min)	Red Trigger Exceedances (250 ug/m3 - 15min)	50 ug/m3 24-hr Exceedance	Data Capture % (Minute)	Data Capture % (Day)
D1	807	Winchester Road	0	0	0	99.50%	100%
D2	832	Adjacent Hampstead Theatre (Site Boundary)	0	0	0	99.50%	100%
D3	828	East Side (Site Boundary)	0	0	0	98.65%	100%
D4	829	South Side (Site Boundary)	0	0	0	99.10%	100%
D5	203	A41 (Site Boundary)	0	0	0	98.75%	100%

Daily monitoring information from the air quality monitor installed on **Winchester Road** (Monitor no **1**) between 06th of July and 02nd of August 2019.

Health and Safety

- No reported incidents/accidents or near misses reported on site within the last 6 weeks

Complaints

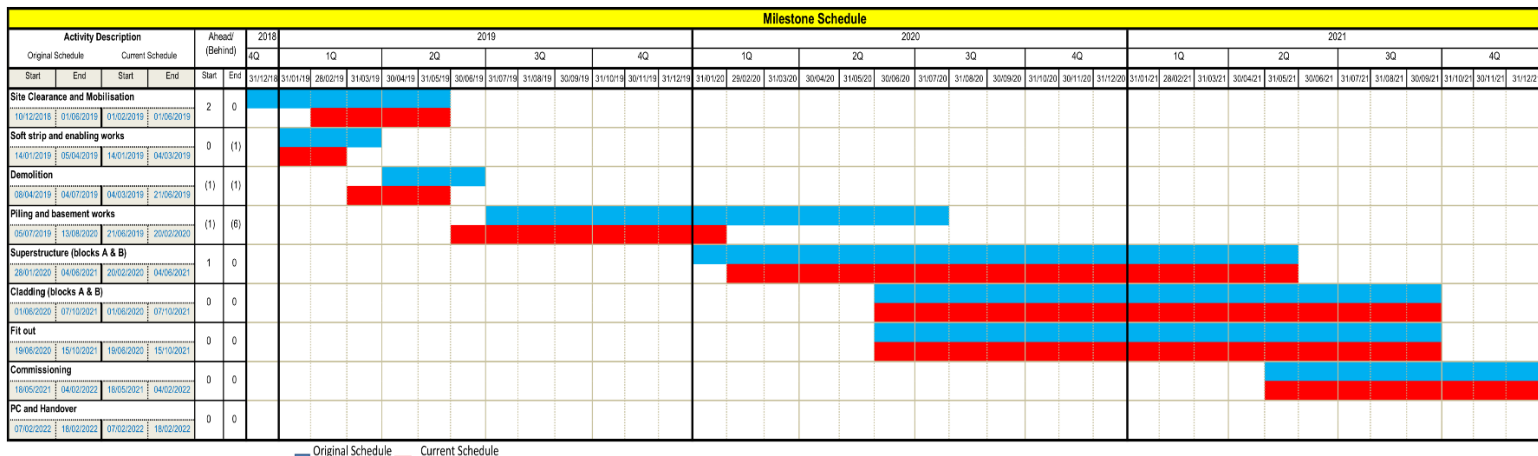

Date Received	Received via	Complaint	Action	Complaint Status
17/01/2019	Email	Lorry parked in the market place	Entrance to site blocked by market trader. Once trader moved, lorry was escorted onto site	Closed
17/01/2019	Last working group meeting	Flood lights on building causing nuisance to certain local residents	Flood lights on building turned off on the 18/01/2019. Permanent Hoarding lighting to be erected week commencing 21/01/2019	Closed
17/01/2019	Last working group meeting	Reported lorry idling with operatives asleep on Winchester Road	Unfortunately, no registration number provided and John F Hunt were notified of this problem too late to resolve completely. All contractors to be reminded that no lorries are to idle outside of site and engines are to be turned off whenever vehicles are parked	Closed
29/01/2019	Email	Reported lorry parked on site	Vehicle accompanied by Traffic marshals onto site with extendable gates in place at the front gate. Lorry wasn't idling throughout the off loading period	Closed
03/02/2019	Email	<ol style="list-style-type: none"> 1. Hoarding colour 2. Graffiti on the hoarding 3. Emergency gate, gap between pavement and gate 4. Camden litter bin 	<ol style="list-style-type: none"> 1. Hoarding green leaf model will be installed week commencing 18 Feb. It had to go into design, printing and lamination before installation 2. Graffiti writing was done during the weekend. It has been covered with paint on Monday morning 3. Gap Closed and emergency access only sign placed on the gate. 4. Camden litter bin re-instated 	Closed
20/02/2019	Email	Vehicles Reversing into site	We have explained that vehicles had to reverse into site due the need of tipping of crush to form hard standing	Closed
26/02/2019	Email and verbal	Enquire about the No of vehicles allowed onto site	The approved CMP allows us to have 7 lorries in and 7 lorries out of site project	Closed
12/03/2019	Verbal	Enquiry regarding reason why we opened the emergency gates at Eastern side	Due to an unexpected vehicle delivery type, rather than refusing the vehicle and obliging it to turn within Eaton Avenue Rd, we decided to turn the vehicle on site by opening the Emergency gate located at east side boundary as a least hazardous option	Closed
25/03/2019	Email	Same enquiry as above	Offered the same response as above	Closed
